Additional Services

Bridal Portraits Sessions

We always do a bridal portrait, of the Bride in her dress, on the wedding day. However, many Brides prefer to have a personal session in order to capture that feeling and look in the best way possible. Our Bridal Sessions are an excellent way to capture these images with no pressure and no rush. These sessions are available to our brides for \$150 and can be done in the studio, on location or both.

Engagement Portrait Sessions

We offer an engagement session to every couple that we work with. Why? There are several reasons. Mostly, it gives us a chance to get to know one another. This way, when we arrive on the wedding day, the Bride and Groom will already be comfortable with us. Face it, you will be nervous enough on your wedding day without some stranger following you around with a camera. It also gives us the chance to see how you respond to being in front of the camera.

However, most couples like to do the engagement session because it is fun!

Album Options

Wedding Albums

Whether your tastes in albums tends toward the more traditional styles or you prefer a modern look and feel, we have an album that will work for you. While we offer many choices when it comes to wedding albums, primarily, we use two different album companies. These two companies provide excellent quality albums that will last a lifetime and have a proven record with our studio.

The albums we offer also have several options to fit different needs and budgets. We also offer several other options and can provide most any album you may have seen or heard about, so if the choices listed here do not include what you have in mind, please ask. We can generally find what you are looking for.

Art Leather

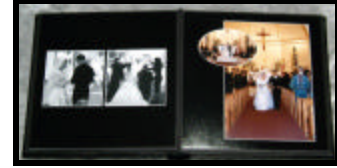

Art Leather provides some of the finest wedding albums in the industry. With over 80 years of experience behind them, we count on these albums to live up to our high standards of quality, because if the albums don't look good, neither will our photography and your memories.

We offer three different styles of wedding albums from Art Leather. The i-Mount, The Futura Onyx, and The Futura Bound. These three styles offer prices ranging from budget-minded to those that are more in the mid to upper range for most of our clients' needs.

i-Mount

The i-Mount albums are an affordable alternative to some of the more high end flush mount wedding albums.

These are great albums at a price that anyone can afford. They can be custom designed to fit any taste.

Futura Onyx

The Futura album line has been the best seller in many studios for decades. It has all of the class and

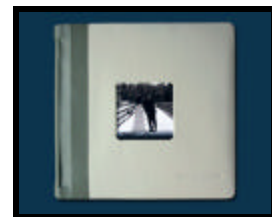

style associated with the traditional albums that your parents loved combined with the look and feel to excite the modern-day Bride and Groom. This style offers many different options and customizations to allow you to create a truly unique album.

Futura Bound

The Futura Bound album line is a variation on the popular Futura line. The Bound albums have the same ease of customization and matted design that the traditional Futura line

offers, but adds some great new cover designs along with the very popular bound library style spines. These albums are great for couples who wish to add a modern twist to an old favorite.

Album Options

Zookbinders

Zookbinders is an album company that manufactures some of the most creative albums in the wedding industry. With over 10 years of experience, they are quickly becoming one of the premier album companies around.

We primarily offer two of their most popular lines to our couples, but we can order any of the styles they offer. The two styles that we offer most are the Matted Albums and the Flush Albums. These very contemporary styles provide our couples with the beautiful look that everyone is talking about and have become quite popular with many of our clients.

Matted Albums

The Matted Album line offered by Zookbinders gives couples the traditional feel of a matted frame album design

with the look of a library bound spine. The prints are recessed into a beveled cut mat while the pages remain flush and smooth in their appearance.

Flush Albums

The Flush Album line offered by Zookbinders is the very essence of creative, contemporary album design. The images are flush on the page and the binding of the album is the popular library bound style. The images in this type of album allow for complete control over the presentation of images on the page that is only limited by our imagination.

Sample Album Pricing Options

NOTE: All prices listed below are for albums purchased after the wedding. Any album package added to the wedding coverage and pre-paid is eligible for a 15% discount from these prices.
